Background and Methodology

Background and Methodology

Background

The Louisville Bar Association (LBA) contracted the services of Thoroughbred Research Group to assist in its annual review of the performance of sitting judges. The LBA sent evaluations to all Kentucky Bar Association members with contact addresses in Jefferson County to rate the performance of various judges with whom they have had experience over the past two years. Jefferson Circuit Court and Jefferson Family Court judges were included in the evaluation for 2010.

Methodology

In January 2011, letters and postcards were sent to an estimated 4,200 KBA members informing them of the annual Judicial Evaluation. Members who were qualified to participate in the review were asked to fill out the postcard request and return it to Thoroughbred Research Group no later than January 25. A total of 710 postcard requests were received by the postmark date. Survey packets and return envelopes were mailed to the 710 members in mid-February. A reminder was posted on the LBA website approximately two weeks later. Respondents were asked to return the completed evaluation forms to Thoroughbred Research Group postmarked no later than March 10, 2011. A total of 402 completed survey forms were returned in time to be included in the tabulation.

Questionnaire

The survey instrument included a series of 19 attributes for the circuit court and 18 attributes for the family court that were used to evaluate the performance of each judge. Respondents were asked to indicate the extent to which they agreed or disagreed with each statement used to describe a particular judge using a four-point rating scale of strongly disagree, disagree, agree and strongly agree. Respondents were also given an option to write in any advice they would give to a particular judge to improve his/her performance. These comments were provided only to the applicable judge under separate cover as confidential feedback for his or her personal review. General comments on how to improve the evaluation process or the court system were submitted to the LBA under separate cover.

Respondents were instructed to rate only those judges with whom they have had substantial professional contact within the past two years.

Response Rate

Because of the size of the litigation bar and the nature of such practice, only a limited number of attorneys have had significant experience with a particular judge in a specific court. Consequently, from the original 4,200 attorneys who received notice of the evaluation, just a fraction could reasonably be expected to respond to the survey questions. Of those attorneys who were qualified and agreed to respond to the evaluation, many may have significant experience in only one of the courts evaluated or with a limited number of the judges listed. Still, the number of lawyers responding is more than adequate to result in a statistically valid evaluation of the judiciary.

The table below shows the judges included in the 2010 evaluation, and the total number of KBA members who rated each judge:
